Branding

This section presents a few selected branding projects of our work. More projects are to be found on our website, social media platforms, and professional networks. Along with the brand identities we helped shape, other services were offered including packaging design, products photoshoots, animated videos and/or websites, depending on the nature of the company's brief or business.

Packaging Design

Waah
ORGANIC

All Natural, Organic Ready-to-Eat Meals

COMBO PACK

Why Waah Organic?

Put simply organic is good for you. No chemicals, no pesticides, and 100% natural fertilizers keep your insides as healthy as nature intended.

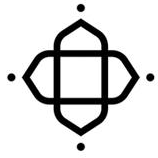

By picking Waah Organic, you're choosing 100% certified organic ingredients hand-picked by farmers across India. Go organic; your body, and the environment, will thank you!

Waah Organic isn't only natural, it's convenient. It's all of authentic Indian cuisine in a handy pouch that you can carry anywhere – from camping to a dorm room, from your kitchen to your office pantry.

Worried about its freshness? Don't be, our organic, vegetarian and vegan varieties stay fresh for 24 months without any additives or harmful preservatives. All you need to do is heat it up, and bring your appetite.

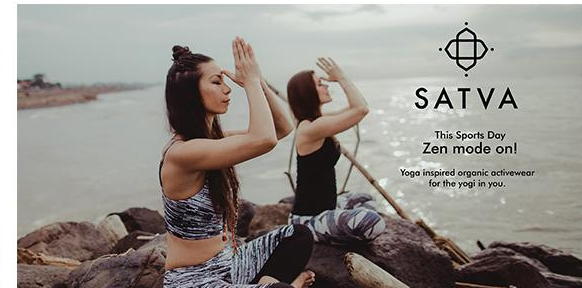

No Preservatives . No Additives . No Cholesterol

Presentation Decks

We help our clients convey their message more effectively and engage and captivate their audience. Our design and content structuring makes the presentation clearer, more concise, and more memorable, so that audience understands the message in it and retains it. By adhering to the client's Brand Identity while making designs and text content, we help the audience connect with the Brand.

Energy Storage Environment – Current Challenges

- Advanced Batteries (Li-Ion):** Safety, life and performance major concerns due to beyond 80% consistent guarantees (temperature, current distribution, bank energy)
 - Real time data on battery bank performance:** Limited to Nomin data availability at overall battery bank load variation (Disch Capacity, Planning/Reserve/Replenish/Powerhead as Delivered)
 - Energy backup Predictive Analytics:** To combine AI driven predictive intelligence available (battery bank/DC/Inverter & other energy source analysis)
 - Remotely Controlled & Safety System:** Not available (High Battery Theft & High Cost of manual battery report)
- Dispersed energy ecosystem with limited use of modern technologies leading to downtime, under performance and inefficiencies

App & WebApp Tutorial Videos

Animated WebApp Tutorials help new users familiarize with a new product quickly and easily understand its features & utility. It also saves companies hundreds of man-hours usually spent in training such new users.

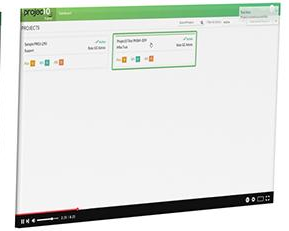

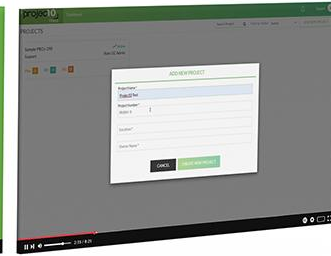

Our approach of making such tutorials is to first understand the product, its applications, features, and their end-goals, then translate such understanding into easy to understand voiceover scripts which is then visually demonstrated into screen recordings, animated graphics made to client's Brand Guidelines.

Explore Limits, with No Limits!

About

Esha Gupta

Esha Gupta is a critically acclaimed versatile actor in the Bollywood film industry, named as one of the sexiest women in the world, a fashion icon, and an environmentalist from India.

She was a national level (under 16) Volleyball player and Miss India International in 2007. After completing her course in journalism, Esha went on to pursue her master's in Environmental Law from Newcastle University, but mid-way started her career in acting in 2012.

Having been nominated and won many debutant awards, Esha embarked on a beautiful journey in films with commercial success and modeling for numerous brands.

Thank You!
